

GLOBAL MALA 108

Sept 21st
Fall Equinox UN International Peace Day

Supporting Yoga Energy Activism SolarAid Project

Our energy future has no borders and our collective consciousness as untapped power for positive change. Join a ritual gathering of local and worldwide community for a yoga mala, prostrations, mantra and movement meditation to connect together on this auspicious day as we raise the vibration together. Let us wake up to our energy future. The fuel we burn effects the air we breathe, the water we drink, the food we eat – we are interconnected as every community is “downwind” of the next. Join Yoga Energy Activism in partnership with Off the Mat Into the World to come together for a gathering where we will share our inspiration to activate the power of our inner and outer energy renewal towards a sustainable future for all.
